Dear Dr. Lederberg:

In connection with the chapter that Werner Braun and I are writing for the 3rd edition of Dubos' "Bacterial and Mycotic Infections of Man", we would like to include a picture of E. coli protoplasts and request your permission to use Figure 1 from Proc. Natl. Acad. Sci., 42, 574-577 (1956). If you have any actual photographs of E. coli protoplasts, we would appreciate receiving glossy prints.

With thanks in advance and best regards from Werner Braun (who is in California at the moment) and from myself,

Sincerely,

*Henry Vogel*
